

Erect Defense Against Pensions

WASHINGTON—The new deal was developing a first line of defense against "crack pot" pension schemes today. It planned to amend and liberalize existing social security legislation early in the next congress.

Final form of administration amendments probably will be determined by President Roosevelt. The social security board has prepared a seven-point amendment program for expansion and liberalization of pension and child-aid provisions of the act.

There has been no public estimate of how much costs would increase after proposed changes were made. Outstanding among them is an amendment for:

"Extending the act's coverage to include farm laborers and domestic servants, self-employed, employees in the Federal Reserve system banks, American seamen and persons employed by charitable institutions."

That amendment would add approximately 16,000,000 persons to the old age insurance rolls and there is likely to pile up around it tremendous pressure from back sides. The extension of a pension tag and the bookkeeping involved to the Nation's farms raises some nice political questions.

But the evidence of primary election voting this year strongly supports the theory that the pension snowball is rolling fast and getting bigger. The typical and best advertised plans are unattractive in that they merely fix an age limit and propose that all persons who reach it shall go on the pension payroll at from \$120 to \$200 a month.

The social security advisory council will meet Oct. 21 to consider amendments tentatively drafted by the social security board. These include application of the act to farm laborers and others. The remaining six points of the board's tentative program are as follows:

1. Provide benefits for aged wives and widows and for young children of insured persons dying before reaching retirement age, 65.

2. Commence payment of old age insurance annuities at an earlier date than Jan. 1, 1942. Officials said tax payment data probably would be moved up to 1940 which, by coincidence, will be a presidential election year.

3. Broaden the minimum base of \$45 to provide larger benefits for those retiring during the earlier years of the system. The scale runs now from \$20 to \$25 a month. It might be altered to run from \$30 to \$40 a month, reducing the maximum but giving more persons more money by increasing the base pension figure.

4. Raise the percentage of maximum federal grants for dependent children from one-third to one-half of the total cost of the project.

5. Simplify unemployment benefit procedure.

6. Achieve greater administrative economy; develop simpler methods of calculations and paying benefits, and reduce detailed work required of employers in complying with unemployment compensation provisions.

Civil Service Examination

A civil service examination, for Post Master at Grenada has been announced, with the information that all applications must be on file with the Civil Service Commission at Washington, not later than Nov. 1, 1938.

The examination will be held pursuant to a recent act of Congress it is stated.

Dozen Pups

Vince Barranco's German police dog has presented him with an even dozen of pups according to Sam Barranco, his brother. All are getting along nicely according to the report.

Oil Men Planning To Reduce Taxes

Jackson—A nine-point program of objectives, featuring a proposal for elimination of ad valorem taxes on motor vehicles, was released today by the Mississippi Oil Dealers' association through its attorney and secretary Herbert Nunnery.

Adoption of this far-reaching program is based on the realization that "excessive taxation, burdensome restrictions and improper or unwise use of motor vehicle tax revenues delay the full and speedy development of highway transportation, deny the benefits of automobile ownership and use too many residents of the state and unfairly shift the tax burden on those less able to pay."

"If faithfully carried out," Mr. Nunnery explained, "this program will foster justice and equality for both automobile and general taxpayers, and will safeguard the welfare of the 35,000 workers engaged in the automotive, petroleum and allied trades."

"At the same time," he added, "it will encourage the most advantageous development and use of the state's highway facilities."

Elimination of the ad valorem levy would lift only one of the 117 different kinds of taxes paid by car owners for upkeep of their motor vehicles, it was stated.

Asserting that about one-third of all automobile owners in the state evade this tax, Mr. Nunnery said that the "honest law abiding citizens who pay the tax are clearly subject to unjust discrimination."

Pointing to the statement by Mayor Walter A. Scott of Jackson, that "motorists pay 117 different kinds of taxes for he upkeep of their cars," Mr. Nunnery said the time has come "that some relief be afforded these taxpayers."

Mayor Scott's statement also declared that "motorists pay 201 kinds of taxes on oil and all its products," and that "out of forty cents goes for taxes."

Mr. Nunnery said reports are every dollar spent for gasoline that many motorists are purchasing privilege tags under fictitious names outside the county of their residence so as to make it impossible for the taxing authorities to trace ownership of the cars.

Opposition to diversion of gasoline taxes for other than (Continued on page 4)

King George To Visit In Mid-Summer

LONDON—Circles close to Buckingham Palace expressed belief today that King George and Queen Elizabeth would make their visit to Canada during the latter half of June on the first part of July, 1939.

These dates would fit in best with the seasonal court calendar, it was explained.

It was understood that the exact date would be announced in a few weeks after Lord Tweedshir, Governor General of Canada, had talked with his advisers and consulted the court here. The King and Queen were expected to be absent from London four or five weeks.

The court levers are customarily held in May, June or July. The King's birthday, which actually falls on December 24, celebrated June 9 when the King reviews troops of the household regiments. The King usually attends the Epsom horse race meeting early in June. This could be dropped, but the presence of the King and Queen is needed at the royal meeting at Ascot during the second week in June.

Dr. T. J. Brown Passed Away Monday, Oct. 10th

The brilliant and amiable earthly existence of Dr. Thomas J. Brown has passed. The end came Monday at Grenada Hospital.

The funeral was conducted at the home Tuesday 10:30 a. m., corner of Margin and College Streets, at which he and his faithful companion had resided for almost forty-nine years.

The deceased was born March 15th, 1862 at Shiloh in Yalobusha County. He married Miss Jimmy Bibby Dec. 7, 1887 and moved to Grenada, January 1890, residing here and practicing medicine until the end came.

For the past several years, Dr. Brown had served as County and City Health officer, being regarded most highly in his profession and by the State Board as well as the State Medical Association.

He was a man of brilliant intellect, and possessed a most remarkable memory. Surviving are his widow, three daughters, Miss Mary Isabelle Brown, Mrs. Edith Brown Hays and Mrs. Frances Brown Kent, two grandchildren, Frank Hays and Margaret Ann Kent, and a brother, William Jenner Brown, of Gulfport.

A sorrowing throng attended the funeral rites Tuesday morning as Thos. J. Brown at the home on Margin Street this morning, as the Rev. C. A. Parks officiated. Mrs. George Granberry, Mrs. Frank Matthews, Mr. R. H. Herling and Mr. Vassar DuBard sang. Active pallbearers were Sam Garner, T. B. Revell, Jr., John Rundle, Jr., Hubert Calhoun, Andrew Carothers, W. R. Todd.

Honorary pallbearers included all local physicians and J. D. Dyer. The remains were tenderly laid to rest in Odd Fellows Cemetery.

Over thirty people are playing the grid pick weekly. Get in the game. You may win.

IT NEVER HAPPENED BEFORE

The Grenada Sentinel today is printed on The Daily Star's press, in the old Star location.

This is something else that never happened before, but it was made necessary by a breakdown at The Sentinel office.

Mississippi Garden Clubs Go To Hot Springs

GREENWOOD, Miss., Oct. 11—Six Mississippi Garden Club executives will attend the semi-annual regional meeting of the National Council of State Garden Clubs, to be held in Hot Springs Oct. 12 through Oct. 14.

The delegates include Mrs. J. D. Duncan, Greenwood, state president; Mrs. Albert Watkins, Minter City, state conservation chairman; Mrs. C. J. Byrne, Natchez; Mrs. J. F. Dixon, Vicksburg; a past state president; Miss Lucy Garrett, Pass Christian; and Mrs. D. G. Rafferty, Pass Christian, state membership chairman, and a past state president.

Mrs. O. W. Dynes, of Chicago, the president of the National Council of State Garden Clubs, will preside at the meeting, which will be held in the Arlington Hotel. Among the outstanding regional officials attending will be Mrs. Gross R. Scruggs, of Dallas, a former officer of the National Council who toured Mississippi Garden Clubs in 1936.

Mrs. Frederick A. Wallis, of Paris, Ky., the regional vice-president; Mrs. Stuart Wilson, regional treasurer; and Mrs. W. A. Nelson, registration chairman of Texas, Ark., will have charge of convention arrangements.

White House Plans Reception

Three Young Men Hunted For Murder

LARCHMONT, N. Y.—Three young men seen speeding northward through New England in an automobile became today the first suspects in this assault and murder of 17-year old Mary Imelda Coyle.

The youths stopped at a restaurant in Norwalk, Conn. One had scratches on his face. A waiter heard him say: "It's getting too hot for us down there. We'd better scam out of here."

Outside they stopped in front of a stationery store. John Troy, the proprietor, heard one say: "Let's buy a paper." The youth with the scratched face replied: "No. There's too much headlines for me."

Troy beckoned to a bystander to follow the youths when they entered their maroon coupe and started away. Sinclair pursued them to Westport, Conn., but lost them.

Larchmont police in the meantime had found the girl's beret and coat beside an automobile crank in a vacant lot, but had been unable to develop any promising clues in this shocking crime in this fashionable New York suburb, since summer. Only half a mile from Miss Coyle's house boat home the headless body of kidnaped 12 year old Peter Levine was washed ashore a few months ago from Long Island sound.

The girl disappeared while on her way to St. Gabriel's Church for Novena services on Monday night. She was deeply religious and had dreamed of becoming a nun, although poverty caused her to not enter a convent.

W. T. HIGHTOWER DIES
Mr. W. T. Hightower, of near Alva, Montgomery county, died at his home this morning and will be buried at New Liberty, Montgomery county, at 10 a. m. Friday morning.

LONDON—Great Britain's experts on international executive got together today on the question of whether Mrs. Eleanor Roosevelt should curtsy to Queen Elizabeth if they meet in America—and decided that the United States first lady should "suit herself."

Many questions of precedent and official status were weighed by the experts as they debated the probable result of Mrs. Roosevelt's statement that she would do whatever the state department told her to do. But the conclusion reached was that all the state department experts can report is that she will have to make up her own mind.

One thing appeared certain: Nobody is going to expect America's first lady to curtsy if she decides otherwise, regardless of the fact that Mrs. Albert Lebrin, wife of the President of France, dropped a neat curtsy when she met the Queen on their Majesties' visit to Paris.

The experts said that what Mrs. Roosevelt should do boiled down to the relative status of herself and Queen Elizabeth. Mrs. Roosevelt's official status as the wife of the President will be that of "consort of the head of a country" while the status of the Queen will be that of "a distinguished visitor."

Thus the President's wife would not be expected to curtsy in greeting the distinguished visitor from England. All other ladies to be presented, however, would be expected to curtsy. That would include the President's daughter, Mrs. Anna Boettiger.

The etiquette experts, in their deliberations, tossed off a good many other rules which "Americans should know in preparation for the first visit ever made to the American continent by reigning British Sovereigns."

If the President meet the royal couple, the procedure calls for Mr. Roosevelt to take the initiative and advance to greet the King and Queen. He would shake hands with both and then Mrs. Roosevelt would greet them. All ladies and gentlemen present, including (Continued on page 4)

A. J. McCaslin Dies After A Long Illness

A. J. McCaslin, 76, died at his final reward Sunday morning at his home on Main Street after a long illness. Funeral was conducted from the home by Rev. C. A. Pharr, with interment in Odd Fellows Cemetery.

Mr. McCaslin was born in Graysport and was 76 years old. His family moved to Coffeeville when he was a young man. He later came to Grenada and had resided here for 36 years during much of which time he had been prominently connected with business affairs in this city.

In 1907 he was married to Miss Maude Windham, of Duck Hill, who survives. Other survivors are four sons, Alston, Louisville, W. Y. McCaslin, of Memphis, Henry, of Beulah, and Byron, of Rosedale; three daughters, Mrs. Alton Johnson, of Buffalo, Texas, Mrs. Roger Dollarhide and Miss Louise McCaslin, of Grenada, one brother, John McCaslin, of Calhoun City and two sisters, Misses Willie and Rebecca McCaslin, of Graysport.

Pallbearers were: Bob Vandiver, Andrew Carothers, George Granberry, George Grant, Clarence Berry and Ben Adams.

Mr. McCaslin was well-known as a pioneer in the automobile business in this section of Mississippi. He was widely known, and news of his passing will be received with regret over a wide area.

GERMANY WILL SEEK A COMMERCIAL TREATY

ISTANBUL, Turkey—Walter Funk, German Minister of Economics said in an interview last night that as soon as he returned to Germany he intended to start negotiations for a German-American Commercial agreement on the same basis as the agreement between Germany and Great Britain.

Are Optimistic About Exports Of Cotton

NEW YORK — Statistics on world cotton exports disclose an improvement in the United States position despite a world drop in exports of almost 2,000,000 bales.

In the marketing year ended July 31, the six international leaders exported almost 300,000 bales more in the same period, a gain of 5 per cent.

Decline of 30 per cent of the exports to 5 other countries was traced to a drop of 60 per cent in Japanese purchases.

The Department of Agriculture, commenting on the August 1, carryover of 9,207,460 bales, pointed out that this was the largest on record, and that 81 per cent was tendable grades and staples, compared 70 per cent of last year's carry over.

Claim Bradley The Outstanding Conf. Quarterback

UNIVERSITY Miss. — Kimble Bradley, skipper of the Ole Miss varsity, is the outstanding quarterback in the Southeastern Conference today.

That's what his coach, Harry Mehre, firmly believes, and the new Rebel mentor has been associated with SEC pigskin activities for a long, long time. It's been 11 years since he took over at the University of Georgia, and he can't remember the time he's seen a "natural" capable of competing on equal footing with Bradley.

Mehre says he will miss his guess if the Hattiesburg griddle doesn't set the pace for Big 33 field generals.

Bradley is fast, alert and powerful. He has served two years under the Warner system, where a quarterback must be potent as a blocker, and the 196-pound star has learned his lessons well. He really gets his man.

As a field general Bradley is (Continued on page 4)

Auto Men Say Sales Improve

British Ship Is Damaged By Rebels

BARCELONA — The British Steamship Stan-croft, 1,407 tons, was damaged by a Nationalist air bomb today during an airplane raid on Port Zone.

ABDUCTED ARAB LAWYER FOUND SHOT TO DEATH

JERUSALEM—A leading Arab lawyer and nationalist spokesman, Hassan Sidky Bajany, 40, abducted from the city yesterday, was found shot to death in a field today.

He was the first high ranking Arab leader slain during the current rebellion. Jews and Arabs alike were shocked by the crime.

He had been councillor of the municipality of Jerusalem, a former candidate for mayor and unofficial representative in Palestine of the ever abducing of Transjordan. Before the British conquest during the world war, he had been an officer in the Turkish army and was a member of a noted Arab family identified with the Hussein faction, whose better political and religious feud with the Nash-shibi faction prevented Arab solidarity in Palestine until their compromise in 1936 for joint action against British troops.

TROPICAL DISTURBANCE TO STRIKE GULF REGION

NEW ORLEANS—A strong tropical disturbance was expected to strike the Northwestern gulf region late today.

The New Orleans Weather Bureau, in an advisory issued at 1:45 a. m., C. S. T., said indications were that the center would pass inland between Mobile, Ala., and Pensacola, Fla. The storm was expected to pass east of Port Eds this afternoon.

Northeast storm warnings between Morgan City and Port Arthur, Tex., were ordered down but small craft from Morgan City to Farson Springs, Fla., were advised to remain in port.

GUNBOAT STRAPPED

HONG KONG—The American gunboat Hindanad and three British gunboats may be trapped in the Pearl River at Canton during the Japanese South China drive, it was feared today.

Japanese Forces Land In Southern Part Of China

TOKYO—Army and navy authorities announced today that Japanese forces had landed at "a certain point in South China." Stock exchange prices skyrocketed.

The army and navy sections of imperial headquarters said that the Japanese landing forces made surprise and completely successful landing and at once began their advance inland toward Hong Kong-Canton Railroad and Canton.

Foreign office officials showed frankly their preoccupation with the most important angle of the new drive—the effect on Japan's foreign relations.

Not only is British Hong Kong the gateway to Canton from the sea, but France was an important territory to the South and all nations are engaged in sea trade with China via Hong Kong.

A foreign office statement, which made no effort to control the fact that the "certain point" at which Japanese troops landed was Bias Bay, east of Hong Kong, said that the new operations were purely military, intended to intercept the principal route for imports of arms for China, and to destroy centers of "anti-Japanese machinations."

DETROIT — Survey of the automobile industry revealed a marked acceleration of re- employment today.

The pace had quickened so that it promised to meet one of organized labor's cost insistent demands—that the automobile industry find work for all its employees. It was suggested that the industry might be operating on production schedules soon, which would obviate the need for the 32-hour week solution of unemployment advanced by the United Automobile Workers.

The Buick Motor Car Company announcing that all of its plants were operating two shifts on the five day week, said its dealers had reported more orders for 1939 cars than at any time in the past ten years.

Alfred P. Sloan, Jr., chairman of the Board of General Motors predicted his company's 1939 business would exceed that of 1938 and said he believed there were indications of a "long upward pull" for all business.

Chrysler has recalled 20,000 workers since production of 1939 cars began.

Slave Mill Will Begin Operation

Mr. L. D. Boone of the Grenada Slave Company, announced today that they will open for business immediately.

This will mean quite a lot of business for Grenada and surrounding territory.

Mr. Boone states that people who have slave timber can bring it in at once as he is ready to buy in any quantity, all suitable timber.

Jerusalem Fight

JERUSALEM—Arab Rebels and British troops battled today almost within view of the shrines.

A military patrol encountered and fought an armed band on the road five miles southwest of Jerusalem. One soldier was killed and one was wounded. The Arabs fled carrying an unestimated number of dead and wounded. The battle was near Bethlehem, five miles south of Jerusalem, the birthplace of Christ and scene of the life of Ruth.

The outbreaks were increasing despite the influx of British reinforcements from Egypt, Malta and the British Isles. Eight Arabs were killed yesterday in a battle in the Mablus area.

WANTS TO REDUCE THE OIL SURPLUS

NEW ORLEANS—Gov. Richard W. Leche today began a move to reduce over-production of oil in the United States.

He announced that Louisiana's production would be reduced 40,000 barrels daily during November as an "example." "We hope other states will follow suit," Leche said. "There is a general overproduction that is causing the price of crude oil to drop dangerously low. The oil fields are con-fined are being discovered."

Lighted Field Is Complete

Grenada's lighted athletic field is ready. The lights were turned on for the first time Tuesday afternoon, and found to provide ample light.

The first night game will be played next Friday, Oct. 21, when the Bulldogs meet Houston.

Read the offerings of merchants in this issue.

Local, Social, and Personal

Telephone 240

DuBard-Parker.

Lexington — Mr. and Mrs. Alton Parker announce the marriage of their sister, Marguerite Parker, to Mr. William Mitchell DuBard, II, of DuBard, on Sunday afternoon, October 2, at the Lexington Methodist Church, the Rev. J. T. McCafferty officiating.

The bride's ensemble was a boy blue with black accessories. She carried a corsage of red roses and valley lilies.

Immediately after the ceremony Mr. and Mrs. Parker received the wedding guests in the church parlor. They were assisted by Mrs. A. E. Heidelberg, Greenwood; Mrs. R. P. Nebel, Jr., Brookhaven; and Miss Alice Dalton Johnson, of Lexington, who served the bridal cake and sandwiches with coffee.

Downing-Scarborough.

James Terrell Downing, of Jackson, and Miss Sue Jane Scarborough, of Vardaman, were married Thursday, October 6th. Rev. E. R. Henderson performed the ceremony.

Mr. and Mrs. Arthur Jarvis and son, spent Sunday in Columbus visiting Miss Cebell Baker on the MSCW campus.

Mr. and Mrs. Arthur Jarvis and son spent Sunday at Columbus visiting Miss Cebell Baker on the M. S. C. W. campus.

Mr. Frank Jones of Memphis, a former Grenada citizen was in the city today on business. He was greeted cordially by many of his old friends and had to take "time out" for them.

Mrs. John Mitchell and Mrs. Allen Mitchell spent Monday in Memphis.

Steve and Bobby Short, of Mississippi State, visited their brother, Bill Short Sunday.

Miss Anita Cobb, of Memphis, is visiting in the home of Mrs. W. A. Thompson.

Billy Anderack, of Memphis, is the guest of Frank Matthews.

W. E. Goss, of Calhoun City, spent the week-end in Grenada.

David Asford, of Valdes, spent Sunday in Grenada. Mrs. Asford who had been visiting relatives here for several days returned home with him.

Miss Jewel Pipkin and Frances Thomas, of Miss Wylie's Business College, of Memphis, spent the week-end with homefolks.

Mrs. Spencer, of Winona, and Miss Eoline House, of Washington, D. C., was the guest of Mr. and Mrs. W. E. Boushie last Friday. Miss House is assistant secretary to Cordell Hull.

Mr. and Mrs. Jack Saddle and Mrs. H. B. Hobbs, of Memphis, were guests of Mr. and Mrs. E. H. Herring Sunday.

Mrs. Bell Richardson, of New Orleans, is visiting her sisters, Misses Georgia and Lucile Cook.

Mr. W. B. Peacock and daughter, Lloyd, of Lexington, spent Friday night with Miss Sue Peacock and brothers, Gus and Lovick Peacock.

Misses Lydia Meek Estes and Ethel George Nichols and Bobby Sharp spent the week-end with homefolks.

Misses Beas Wood and Elizabeth Baker spent the week-end in Memphis as the guests of Miss Kathleen Norris.

Ball-Brown.

Mr. and Mrs. H. M. Brown announce the marriage of their daughter, Marjorie to Mr. A. G. Ball, of Aberdeen at their home on Third Street, Saturday, October 14th. Rev. E. R. Henderson officiating.

Miss Ethel Hollis, Mrs. Mabel Harris and Mrs. L. B. Gays, motored to Derma Sunday.

Harold Biddy returned to State College after spending the past week at home on account of illness.

Miss Theisman Entertains

B. G. Club Friday Night.

Miss Lynn Theisman was hostess to the B. G. Club on its weekly Friday night meeting.

After a short business meeting a very delightful game called "Table Talk", was played.

Delicious chicken salad, iced tea, and fudge cake were served.

There will be no meeting next Friday night as most of the members are planning to be out of town.

The next meeting, Friday, Oct. 21, will be held with Misses Marguerite and Anna Rose Finney at Glenwild.—Reporter.

Mr. and Mrs. Frank Matthews spent Sunday in Memphis.

Mrs. Myrtle Thomas visited relatives in Valdes Sunday.

Mr. and Mrs. H. A. Lewis, of Muskogee, Okla., are visiting Mrs. Lewis' uncle and aunt, Mr. and Mrs. T. E. Heath.

Mrs. Rice Lawrence is visiting relatives and friends in Greenville for several days.

Mr. and Mrs. Jap Simpson, of Sumner, Miss., announce the arrival of a son, Oct. 3. Mrs. Simpson was the former Cornelia Mohler, of Grenada.

Mrs. Elizabeth Abett McIntosh, of Winona, spent the week-end with her daughter, Mrs. H. A. Wilson.

Mrs. Frank Turner is visiting her daughter at M. S. C. W. this week.

Marshall J. D. Crenshaw attended court in Batesville Monday.

Mrs. Walker Wood and Mrs. C. C. King, of Jackson and little Miss Jeanette Wood, of Winona, were Grenada visitors today.

Misses Vivian Williams, Estelle Turner, Hattie Hammond and Miss Batton were in Memphis Saturday.

All circles of the Baptist Missionary Union met at the church yesterday afternoon in a very interesting Bible Study, led by Mrs. John Ryndle. There was a good attendance.

Mrs. H. E. Griffin, of Coffeeville, and Miss Frederick Dalley, of Torrance, were Sunday afternoon guests of Mr. and Mrs. R. Vandiver.

Mrs. L. C. Proby, Mrs. J. F. Woodson, Mrs. Frank Matthews and daughter, Joyce, were Memphis visitors Tuesday.

Misses Mary Haynes and Ouida Ellsey, were week-end visitors in Memphis.

Little Miss Joann Horton, of Memphis, is the guest of her grandparents, Mr. and Mrs. Cowles Horton.

Rev. C. A. Pharr left today for Ridgeley, Tenn., to bring Mrs. Pharr home. She spent last week-end there with relatives.

Miss Aline Bridges entertained at her beautiful country home in her home of Miss Blanche Winter on last Thursday afternoon. The guest list included several ladies of Charleston and Grenada.

Miss Jane Young entertained at luncheon in honor of Miss Blanche Winter, of Jackson. The guest list beside the honoree included Mrs. Mollie Townes, Mrs. Maggie Norvell, Mrs. S. A. Morrison and Mrs. W. Y. West and Mrs. Harry Adams.

Circle No. 1 of the Presbyterian Auxiliary met with Mrs. Ben Adams with Mrs. F. T. Cooley as leader. Several chapters of the mission study book "City Shadows" were given very interesting.

Circle No. 2 of the Presbyterian Auxiliary met at the church in a study and had the second chapter of the book "Radiant Heart". There were eight present. Mrs. Hal Calhoun led the devotional.

Circle No. 3 of the Presbyterian Auxiliary met at the home of Mrs. R. P. Rogers with Mrs. Cherry as co-hostess. The Bible study was led by Mrs. J. M. Bryant. After the Bible study several contests were enjoyed. The hostesses served delicious refreshments.

Birthday Party For

Little Miss Ann Robinson. Mrs. W. W. Robinson entertained her daughter, little Miss Ann Robinson with a birthday party, the occasion being Ann's fifth birthday. There were 40 little guests present.

After games were played the children went into the dining room where there was a beautifully decorated cake with candles and multi-color balloons. The guest took their places beside the balloons and sang "Happy Birthday" to the little hostess.

Mrs. Robinson served delicious ice cream and cake. Little Ann received many nice gifts and wishes for many happy birthdays.

Ammons-Irby. Mr. William J. Ammons, son of Mr. and Mrs. Jesse Ammons, of Charleston and Miss Emily (Baby) Irby, daughter of Mrs. J. C. Irby, of Grenada, were married in Oxford Saturday, Oct. 8th by the Rev. W. E. Lott, Methodist minister. The wedding came as a surprise to the many friends and relatives of the charming young bride.

The groom is an employee of the Harvey Construction Company and the happy couple will make their home temporarily in Marks.

Officers of T. E. L. Class Meet

The officers of the T. E. L. Sunday School Class held their regular monthly meeting last Wednesday afternoon at the lovely country home of their teacher, Mrs. Ethel Thompson. Besides the hostess the following officers were present: Mesdames Sam Simmons, E. T. Swinney, C. E. Lockett, E. L. Betz, J. C. Prose, J. D. Dyre, E. L. Boteler, W. O. Goslin, J. L. Townes, C. D. Elliott.

Mrs. W. J. Rayburn was a special guest. Mrs. W. F. Martin, assistant teacher and Mrs. C. A. Perry, group leader were unable to attend.

After the business session, the hostess served a delicious salad plate with jam cake and iced tea.

Mrs. S. L. Pipkin and Mrs. Tommie Rose attended the Fair in Jackson Tuesday.

W. F. Moss, Gus Peacock and R. L. Bingham spent Monday in Memphis on business.

C. H. Curd, of the South Reporter, Holly Springs, was a visitor to Grenada Tuesday.

Mrs. W. P. Anderson left today for Oxford to visit relatives.

The following guests were present for supper at the home of Mr. and Mrs. E. L. Boteler last Saturday night: Mr. and Mrs. C. A. Paschal, Mr. and Mrs. J. L. Cooley, and Jimmie, Dr. and Mrs. G. L. Johnson, Mr. E. B. Trotman and Miss Mary Alice Kettle.

Mr. and Mrs. J. C. Prose visited their son, James, at Louisiana State University the week-end and saw the Rice-L. S. U. football game. They report James is getting along nicely and very much attached to his work there.

Tony Height is in town this week.

In addition to the election of officers, delegates Edgar Farr Cresswell, L. T. Cutts, and Joe Brigrance were selected to go to the District Chapter Meeting at Duck Hill, Wednesday, October 12.—Reporter.

G. H. S. Bulldogs Invade Clarkdale

(By Pete Lambert)
The G. H. S. Bulldogs travel to Clarkdale tonight for their fourth game of the season and their second on foreign soil.

Grenada will naturally be the heavy underdogs as they will be outweighed considerably, however, don't be too surprised over an upset. We have a light and inexperienced squad but by no means weak.

The Dogs leave town with a clean slate behind them, no defeats, not even scored on. In winning they will keep the former slate clean but I believe they will mar the latter. They won't hardly win without Clarkdale scoring.

If the Dogs play the classy football they played in their last game, they should give a good account of themselves tonight. I'm not saying they will lose, but if they do, it should be by four touchdowns. With Grenada on the losing end, I'll pick this score: 28-0, allowing for Murphy's ability to kick those three point field goals.

Way To Prevent Wood from Chipping

TRAFFORD, Pa. — Research workers of the Westinghouse Electric & Manufacturing Company have discovered a way to prevent wood from chipping, cracking, breaking or burning. DuraWood micarta, or laminated phenolic resin plastic as the new product is defined, can be made with any wood from mahogany to pine, the research engineers state.

LOSS OF SIGHT PROVES NO BAR TO CARPENTRY

DALLAS, Texas.—James N. Simpson, 76, is blind—but he needs no help in taking his lawn mower apart, repairing it and putting it back together.

Not only that, but he is an expert carpenter, mows his own lawn regularly, and spends most of his time doing odd work, about his home here.

"A blind man can do almost anything that a man with sight can do," Simpson says, "but it takes him longer. All he needs to do is to have patience."

Simpson pointed out a new three automobile garage he had just completed behind his home. Although he had no aid or advice, the structure was firmly put together, all supports and cover boards were in place. Simpson did all the sawing, fitting and nailing.

"No, I rarely hit my thumb with the hammer," he said. He exhibited 10 fingers free of maul marks and explained that he just hit a nail lightly until it was well in the wood, then hit it harder. He showed how he kept boards "squared" while he sawed by keeping them against a box.

His chief aid in lawn mowing is a 20-foot 2nd board. He lays the board down on the grass and runs the mower the length of it with one wheel against the board. Then he moved the board over one width of the mower and repeats the procedure.

Mississippi Forest And Park News

Twenty-thousand forest and grass fires that burn over annually about four million acres of land in Mississippi are to be curtailed this winter, according to plans of the Mississippi Forestry Commission and cooperating agencies for National Fire Prevention Week October 9-15, 1933. The plan, as outlined by Tista Forester Fred B. Merrill, is for every citizen to Read, Study and Sign. Forester Merrill says:

"Twelve year records of the Mississippi Forestry Commission show the annual acreage burned now in Mississippi to be less than half of that in 1921. A fine record, but four million acres still burn over each year in the state. The same records show more than 20,000 fires per year and that the reduced area burned has resulted from a better fire fight system and greater fire fighting efforts and NOT from a greatly reduced number of fires."

"The next great step in fire control must come through reducing the number of fires. This can be accomplished through more rigid law enforcement and education. Law enforcement will be emphasized this year by all employees of the Forestry Commission, but before this is done an honest effort will be made to inform everyone of the stringency of the law and to emphasize fire prevention."

"Personal contact is the backbone of education in fire prevention and it is hoped that every citizen will aid in an effort to acquaint every person with the fact that setting fire or allowing fire to spread to the lands of another may bring a fine of from \$20 to \$500 plus penalties for damages to property."

Ninety-two thousand pieces of literature will be distributed during Fire Prevention Week, giving detailed statistics on land use in every Mississippi county, together with a presentation of the necessity for complete land utilization for increased employment and wealth. This reading matter shows

most counties have less than 25 percent of their land in crops or plowable pastures and brings forth the statement, "How long would you keep three of your four mules idle?"

School programs, questions and answers, have been prepared for study during the week. These include facts about each county, methods of preventing fire, where to report fires, National Forests in Mississippi, how to get state and federal help in forest fire protection and why protection will help the county.

Signature cards provide places for 900,000 Mississippians to indicate intentions to aid reforestation through fire prevention. These cards will be distributed by friends of the forestry program throughout the state and at least a quarter of a million persons should be contacted personally by persons not connected with the organization of the Forestry Commission. Aiding in the plans for the week will be the Agricultural Extension Service, the U. S. Forest Service, and the personnel of the WPA Forest and Park Survey Project.

A LANDMARK OF THE OLD SCHOOL

With the passing of Dr. Thomas J. Brown, it may be truly felt that a landmark of the Old School of Southern Gentlemen has departed from the scene.

Those who knew him—and there were many—can recall numerous noble traits. He was most thoughtful in his manner, and possessed—even in his old age—a most alert mind. A most distinct attribute was his ability to remember the dates of events which others had usually forgotten.

In his professional duties, he was highly ethical, and maintained the respect of other physicians—locally and in the state organization.

As a Health Official, he was tireless in his labors for the public's interest, and was frequently complimented by those at state headquarters, under whom he worked.

As a Citizen, he was thoughtful at all times of his neighbors and his community.

In the home—where he is so grievously missed—his most excellent family is a living testimony to his graceful life there.

WAR MUST EVENTUALLY COME

Unless the world is willing to bow to such men as Hitler and Mussolini, war seems inevitable, so far as human causes and actions can be taken into accounting.

The Supernatural forces—which can relieve the most distressing situation—could of course prevent a catastrophe of this kind, but its ways are mysterious and beyond human calculations or suppositions.

The powers of the two dangerous men, who harraas the world at regular intervals—while persecuting races and creeds continuously—have been built on false logic and false economics it appears.

The twin regimes—Nazi and Facist—recognize no Rights for Peoples whose belief or physical appearances differ from the standards they have set.

So other peoples—obviously with divine rights to an earthly existence—who are not Aryans, or the Aryans who will not classify themselves as Nazis or Facists, are being gradually driven into the smaller quarter of the world. Gradually their realm lessens and their plight must therefore become more deplorable.

The loyal subjects of these gods of hatred have been, generally speaking, bought with doles and subsidy payments—including not only agricultural and industrial developments, but bonuses for children (to strengthen armies) to married couples and even unmarried mothers.

As this method exhausts one source for taxes after another—except the beneficiaries of the subsidy—it is obvious that they must from time to time seek new persons and new lands to exploit.

A good example will be remembered from the readings of the earlier history of America, when the Spanish explorer, Cortez came to Mexico and was received and worshipped by the Aztec Indians as a white-faced god. For a time they paid tribute to him with their greatest treasures. He came back for more and more of their silver and gold until his lust and utter unreasonableness proved to them that he was a thief and a robber.

The Aztecs made war on him and his men, then.

It is as reasonable, therefore, on the basis of human nature, that with the world giving them what they ask, Hitler and Mussolini will continue to take, pilfer, rob and oppress, beyond the bounds of human endurance—at which point the other peoples of the world would prefer death to an existence under such intolerable conditions.

Scouts To Have

Exposition In Cleveland, Dec. 9-10

Twenty-five Troops Through- out Delta Counties Will Participate

The Delta Boy Scout Council announces its third Annual Merit Badge Exposition to be held in Cleveland, Miss., on December 9th and 10th. The Merit Badge Exposition gives the Scout an opportunity to demonstrate the educational and vocational values of the Merit Badge program on an inter-troop basis. The purpose of the exposition is to bring about an intelligent understanding of the values of Scouting on the part of the parents and general public.

Twenty-five Troops from throughout the twelve counties of the Delta Council participated in the Exposition held in Greenville last year and it is anticipated this year's show will produce even greater participation according to advice received from Dr. H. C.

Green, of Clarksdale, Chairman of the Council Activities Committee.

The Rotary Club of Cleveland is sponsoring the Exposition and has selected Paul Gerard, Norwood Brown, Dr. Jack Russell and Jim McLean of Cleveland to serve on the Exposition Committee. The Council Activities Committee will promote Troop participation. The members of this committee are Dr. H. C. Green, of Clarksdale, Chairman; A. P. Latimer, Shaw; Chas. Cooper, Clarksdale; Tom Flowers, Greenwood; Tom Simmons, Rosedale; J. W. Almond, Tutwiler; C. S. Liles, Grenada.

The Manual of Information and Instruction to all Scoutmasters in the Council has been released. Each Troop participating will select a booth sponsor to assist in the plans and preparations for the Exposition.

The Merit Badge booths will be judged on how effectively the Troop demonstrates the requirements of the Merit Badge selected under a scoring plan involving the different items. The troops have one hundred and three merit badge subjects from which to select.

University News

By BILLY GATES
UNIVERSITY, Miss.—A colorful highly effective array of Johnny Rebs, working behind the masterminding of Harry Mehre, the nation's No. 1 "upset" coach, invades Nashville, October 15 for what Mississippi confidently expects will be Ole Miss' inaugural victory over Vanderbilt.

With a 20-7 decision over Louisiana State's powerful Tigers to back their claims to rigid efficiency, the Rebs feel the Vandy clash can easily make or break the Ole Miss campaign. They intend to have confidence win No. 2 from the Commodores.

Both teams will carry clean slates into the conflict, Ole Miss having beaten Louisiana Tech 27-0 and State Teachers 14-0. Vanderbilt has whipped Washington U. of St. Louis 20-0, Western Kentucky 12-0 and Kentucky 14-7.

Ole Miss has never beaten Vanderbilt. In fact, the Rebs' luck against the Mississippians and against the Nashville team has been a lone nine points has been the sum total of their efforts in 18 games. Vandy has amassed 556.

Mehre Has Beaten Vandy

Ole Miss last met Vanderbilt in 1930, the score that year being 24-0. Since then the Rebels have gone ahead as a Southeastern grid power, with 1935 their big year. Tennessee with a last minute 14-13 win, was the only conference team to whip Ole Miss that season. Three victories were won for third place in the big 15.

Harry Mehre has guided an eleven against Vanderbilt on two occasions, winning with Georgia in 1931 by a 9-0 count and losing in 1932 by 12-6.

The tilt is sure to produce a co-sal show of fireworks. The Johnny Reb's main calling card is a fast, long-distance aerial attack that has been responsible in the main for Ole Miss' three victories. And Vanderbilt with "anny Ray Morrison at the helm, more than a minor counterpart of the famous "Aerial Circus" Morrison sponsored for Southern Methodist U. several years ago.

The two Rebels Ole Miss believes are "tops" at their positions for the Conference—Kimbly Bradley, Quarterback, and Parker Hall, halfback, heading the Rebel offense. Bradley is a 196-pound blocking back, superb as a field general and defensive stalwart. Hall is a triple-threat wheel-horse who packs 195 pounds into his charges, leads the Rebs' air raids and is a consistently good punter.

But Mehre has a benchful of backs, if its agile, twisting runners and passers the fans want to see. He has 'em of all shapes and sizes. They all line up as good men.

SEPTEMBER REPORT OF GRENADA COUNTY LIBRARY

Since September 12th we have been on winter schedule and hours. The library is open from soon to five o'clock daily and Saturday morning as well. The noon hour is for the special benefit of the bus children who do not have much time out of school hours.

We have bought eighty five new books in special library bindings. They are being fed into the free shelves and placed at the County Libraries as fast as they are ready for circulation. It is too bad that all our books can not look as bright and pretty as the new ones. Please help us to keep them fresh by not turning down pages and by keeping them out if the reach of babies and dogs. These books cost a dollar each and we cannot afford to buy more to replace abused ones.

Four shelves specially built for magazine and storage were bought from the Grenada College recently and installed in the reading room.

The Colored Library Unit is closed at present, pending the assignment of a worker to have charge of the project. We are sorry to have to do this but there is no other alternative at present.

Employment Service Gives Report

The local office of the Mississippi State Employment Service placed 54 persons in jobs with private employers and 48 persons in public employment during the month of September.

New applicants for jobs in September numbered 536, and 210 persons were re-interviewed as old applicants.

In addition the Grenada office took 71 initial claims and 400 weekly continued claims for job insurance payments from the Unemployment Compensation Commission.

This office serves Grenada, Carroll, Calhoun and Montgomery counties.

Of the 54 persons placed in private jobs during September, 38 were men and 16 women. The leading kinds of business in which placements were made were: Manufacture of forest products, retail distribution, commercial and mechanical services, and domestic service.

The leading occupations in which private placements were made were: Yard laborer (industrial), light factory laborer, retail novelties salesman, construction laborer, and cotton picker.

"Employers throughout the state are rapidly beginning to use the valuable free assistance that we have to offer them in finding qualified employees," explained Raymond L. Sullivan, director of the MSSES. "When workers are needed, the employer can get a complete line on what persons are available by writing, telephoning, or visiting the local employment office or itinerant interviewer. We check through our files and show him what applicants we have who possess the training and experience he desires. Then the employer selects the individuals he would like to have referred to him for an interview. This procedure saves trouble, expense and hard feelings for both the employer and the employees."

WALL PRAISES SPONSORS OF WPA PROJECTS

Jackson, Sept. 6.—The local government agencies which sponsor WPA projects have contributed \$1,150,593 in money, materials, and services for the quarter ending September 30th, it was today announced by Mr. Roland B. Wall, WPA Deputy Administrator.

Mr. Wall explained that WPA can furnish the labor, but that non-labor expenditures of work relief funds are rigidly held to a minimum.

"By contributing sufficient materials to make possible really worth while jobs, far sighted project sponsors deserve great credit for improving the character of WPA accomplishments. Their investment also pays their communities good dividends in better streets, public buildings, and other substantial improvements," Mr. Wall said.

Among the sponsors' expenditures credited on the WPA books in the last three months were the following: Lumber, \$124,366; Sand and Gravel, \$90,480; Iron and Steel, \$56,767; Cement and Concrete Products, \$46,019; Gas and Oil, \$19,673; Bituminous Paving Materials, \$19,034; Bricks, \$13,316.

WILL BE READY SOON

The public as a whole may not appreciate the difficulties encountered in placing two publications under one roof, and combining the printing plants.

It becomes necessary under these conditions to move some of the equipment, which is already in the building that is used, and place it at what is deemed the best location, to articulate in the combined plant.

By the time this is done it develops that there is nobody on either force of employees that can work according to their well established customs.

The sum total is that through the period of such combination, working crew and equipment are temporarily disordered for reasons purely natural.

The management is, however, pleased with the progress that is being made and can see the possibility of being ready to render advertisers and printing customers a prompt and efficient service in the near future.

The indulgence of the public—through this laborious period is greatly appreciated.

SOUTHEASTERN JEWISH CONFERENCE TO HEAR NATIONAL AGENCY OFFICERS

Atlanta, Ga., October 10.—Four national officers of the American Jewish Joint Distribution Committee will be speakers at the regional conference for seven southeastern states to be held in Atlanta, Sunday, October 23rd, Harold Hirsch, of Atlanta, regional chairman, announced today.

These will include Rabbi Jonah B. Wise, vice-chairman of the Joint Distribution Committee; Joseph C. Hyman, secretary and executive director; Isidor Coons, national campaign director; and Mrs. Pauline Baerwald Felk, national chairman of the Junior Division.

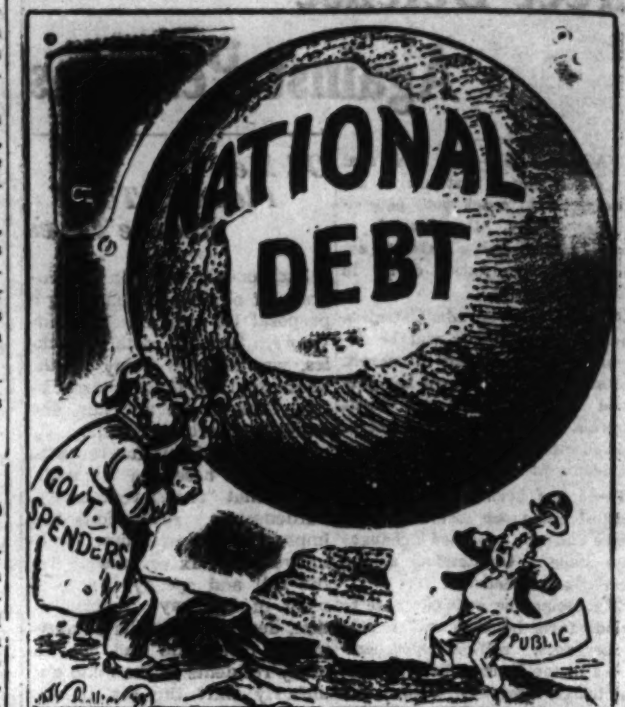

Rabbi Wise, Coons, Hyman and Mrs. Felk, all of New York, will outline the part of the Joint Distribution Committee is playing in alleviating the suffering and privation that is now the lot of

countless oppressed Jews in Germany, Italy, Poland, Rumania and many other foreign lands.

"The Joint Distribution Committee for 25 years has been the major American organization aiding distressed Jews overseas, and we in the southeast must rally to help in the constructive work being done by this agency," Hirsch said.

More than 400 prominent Jewish leaders from Georgia, Florida, Alabama, Tennessee, South Carolina, Louisiana and Mississippi have been called by their state chairman to convene at the Atlanta Biltmore hotel for the one-day meeting to discuss the alarming problem of Jews abroad.

Say Revival To Follow Persecution

VIENNA, (UP)—Roman Catholics predicted today that a religious revival would sweep Austria as the result of Nazi riots in which a crucifix, prayer books, and a parting of the madonna were burned.

Already heavily increased attendance had been noted at all Catholic church services, even though newspapers had published no reports of the riots and the news was circulated only by word of mouth.

I was forecast that the first real indication of a surge of religious sentiment might be apparent in an increased attendance at schools where religious education is part of the program.

Nevadan Get Arms To Resist CIO Invasion

VERA, NEV. — (UP)—Sheriff Ray Root issued ammunition to 150 special deputies and posted them on highways leading into Pendi Tokay to head off an anticipated committee for industrial organization "invasion" from San Francisco.

The deputies were instructed to "shoot and shoot to kill" when Root gave the word. They were stationed at four points on U. S. Highway 40 west on Verdi, the only road leading into this community from San Francisco where it had been reported "1,000" C. I. O. longhorns were massing for a march.

Washington — (UP)—The Supreme Court today refused to review the case of Tom Mooney, serving a sentence for San Francisco Preparedness day bombing. This apparently closed the last avenue for him to gain his freedom.

Highway Aid Approved For Mississippi

WASHINGTON — (UP)—Senator Theo. G. Bilbo announced today after a conference with President Roosevelt that he had approved a grant of three million dollars to Mississippi for Highway Construction.

It is understood that this will enable the highway department to complete some of the vitally needed highways including No. 8.

WEEKLY NEWS LETTER

By W. F. Bond, Commissioner State Dep't. Public Welfare
On account of lack of understanding of some of the services now provided for the people, it is our purpose to ask the schools and colleges of the State to cooperate with us in getting the main facts underlying the entire Social Security Program before the citizenship of the State. No subject of greater importance can be considered now in our Educational Institutions than the efforts of the Federal Government in cooperation with the states to serve the needy of the nation.

Name

ANNOUNCING LEADERS

SEATE COLLEGE, Miss.—Winners in the state home demonstration women's garden leaders' contest and the 4-H girls garden-canning contest were announced recently by R. O. Monosmith, extension horticulturist.

The state sweepstakes award will be made at the Mississippi Free State Fair in Jackson, the competition being based on the garden records of the leaders and the score on their exhibit at the state fair.

Exhibitors at the fair will include first and second place winners in each of four extension districts.

Winners in Northwest district which includes Grenada were Jim Ella Wells, Coahoma; first; Marinee Thomas, Scooby, second; Eloise Duggins, Greenwood, third.

CLAIM BRADLEY

(Continued from page 1)
experienced and commanding the respect and liking of his teammates, has full confidence that what he shoots at opposing teams will have cooperation from the Rebel unit.

He fills the bill according to

Harry Mahre, and to local rail-birds and critics he looks to be "tops."

Oil Men

(Continued from page 1)
road purposes is another of the major objectives to be advanced by the association.

"The gasoline tax and the automobile registration fees were originally enacted to finance the highways and any other use of the revenues is unfair to the motorists, as well as an unwelcome fiscal policy for the state," Mr. Nunnery said. "While there has been no serious abuse of this fundamental economic principle in Mississippi, it is conceivable that some such attempts may be made in the future, and this association stands ready at all times to cooperate with the highway users and all other interested parties in opposing the use of motorists taxes for anything other than construction and maintenance of highways."

Other points in the program include:
Aid farmers and business men in efforts to eliminate the one-half cent tax on kerosene tractor and fuel oil used for certain purposes.
Cooperate with motorists and highway users in urging reduc-

tion in state gasoline tax from 6 cents to four cents.

Material reduction in privilege taxes on independent gasoline service station operators.

Exemption of petroleum products from state sales tax.

Nunnery said.

Render assistance to state and

federal authorities in detection and elimination of gasoline tax evasion.

Aid consumers in efforts to repeal the "unfair" iniquitous taxation and regulation of the petroleum industry and its customers, the motorists and highway users.

Wayside News

Those who ate birthday dinner with Mr. John Tribble last Sunday were his nine children and their family, Mrs. Lucy Wilburn, Mrs. Manley DuBois, of Taylor Chapel, Mr. Johnnie Tribble, Vera, of near Oakland, his brother and family, Mr. Willie Tribble, of Oakland, and friends were present. The lunch was well enjoyed. The lunch was put on tables under the shade of walnut trees. Mr. Tribble was all smiles over his presents. We truly hope him many more happy birthdays.

One of our school buses took a load to Oakland Tuesday night to hear the Jewel Cowboys.

Mr. and Mrs. J. N. Howell are the proud parents of a seven pound girl, who arrived last Wednesday morning. Think the little lady will be known as Betty Sue.

Mr. and Mrs. Henry Pollan ate birthday dinner with their little niece, Jewell Hill, daughter of Mr.

and Mrs. Earl Hill, Sr., last Sunday.

Mr. and Mrs. Clayton Wilburn returned to her home in Oxford last Sunday.

Aunt Lucy Wilburn, of Hernando, visited her sister, Mrs. J. C. Hill and other relatives a few days last week.

Grandma Martin is visiting her children this week.

Mr. and Mrs. Adron Wilburn took Mr. and Mrs. Joe Mitchell and family, of near Rosebloom, to see their daughter and sister, Mrs. Hayward Tribble and family, of Coffeeville last Sunday.

We are very proud we had a bunch to our adult meeting last Friday afternoon. Just like hemming our quilt and it will be ready for use. Everybody come back again.

Mr. and Mrs. Tom Fields with Mr. and Mrs. G. C. Jordan, of Scobey, made a short visit to Sardia last Sunday, looking over the dam.

Mr. and Mrs. Brewer Martin and two children went by Charleston last Sunday and carried Mrs. Mol-

lie Tribble, Mrs. Esther Harvel and daughter to Coldwater to spend the day with their daughter and sister, Mrs. Edward Tomlinson. She was reported on the sick list.

Mr. and Mrs. George Martin and Mr. and Mrs. Jim Martin and little son, were Sunday visitors of their daughter and sister, Mrs. Harvey Lee Todd, of Tillitoba. They are also the proud parents of a fine girl, came last Friday night.

Mrs. Lee Sullivan and small children, of near Grenada, were visitors of their daughter and sister, Miss Parilee Sullivan, who makes her home with Mr. and Mrs. Bailey Kenwright last Sunday.

Mr. Doc Tribble and sister, Vera were in Coffeeville Tuesday. While there Vera visited Marie, the librarian.

Coles Creek News

Mrs. John Provine has returned home after visiting relatives at Holly Springs for the past few days.

Seems as if birthday dinners are getting very common, three in one day.

Horseback riding seems to be sport of the day. Quite a few young folks rode up to our house last Sunday and spent the day and had an enjoyable time.

Mr. and Mrs. M. O. Gray had as their guests last Sunday afternoon Mr. and Mrs. Ervin Gray, of Gore Springs, Mr. and Mrs. W. S. Curry, of out of Scuna, also Mrs. Jim Gullledge and children.

Miss Bessie Vickery visited her mother for a while last Saturday night.

The shower given in the home of Mrs. Carmack Merritt last Friday afternoon in honor of Mrs. Kathleen Rounsaville was a success. The bride received many nice and useful gifts.

The W. M. U. met with Mrs. T. S. Schmitz last Monday. 12 ladies present, rendered the monthly program and elected officers. Will meet with Mrs. O. T. Provine next.

Mr. and Mrs. William Trusty, of Memphis, came by motorcycle Sunday of last week. While down called on their aunt, Mrs. M. O. Gray.

Mrs. Jim Gullledge called on her mother last Sunday.

Scobey News

Mrs. Carrie Combs, of Memphis, returned home Saturday after spending a few weeks with her niece, Mrs. Clyde Best and family. Mrs. Combs was accompanied home by her great niece, Miss Lucile Best.

Miss Ida Dollahite and Mr. Willie Allen Floyd spent the week-end in Dubard with her uncle, Mr. Jim Gordon and family.

Miss Kate Evans, our immediate teacher, spent the week-end in Dubard with her uncle, Mr. Jim Gordon and family.

Mr. and Mrs. Neal Cannon and son, Bobby, of Tutwiler, spent Sunday with their aunt, Mrs. L. B. Carr and family. They were accompanied home by their cousin, Miss Lillie Carr where she will visit a while.

Mr. John Duke, of Blytheville, Ark., spent the week-end with his mother, Mrs. Alice Duke.

Mr. Vassar Evans, Miss Gladys Box and Mr. Charley Oakley from Water Valley, visited Miss Kate Evans late Sunday afternoon and ate supper with her.

Gore Springs School News

Seniors Hold Chapel
Some of the members of the senior class presented a Faculty Burlesque in chapel Monday morning. The characters were: Mr. McGahey, J. B. Bowen, Mr. Brown, Byrd L. James, Mr. Sprayberry, Roger Fite, Miss Berritt, Laura Lott, Miss Allen, Helen Ligon, Miss Word, Essie Joe Windham, Miss McCormick, Frances White, Mrs. McGahey and Elwanda Mormon. The scene was in hell with Mr. McGahey promoted from principal of Gore Springs High School to the devil himself.

The letter the students sent as a sentence was: Awful Teachers. Your sentence in hell consists of:

Mr. McGahey—one year without a drop of water and take orders from everyone, but give none.

Mr. Brown—six months washing dishes the entire time.

Mr. Sprayberry—ten months never speaking above a whisper, and ten licks a day.

Miss Peritt—one year using sin't in every sentence and only True Story and love story magazines to read.

Miss Word—six months taking one hour of exercise a day which consists of running up and down the streets of hell, yelling to the top of your voice.

Miss McCormick—three months repeating t-h-e-n, than two hours each day.

Mrs. McGahey—six months walking tip toes just allowed to say only one word and that is sh-sh-sh.

Miss Allen—nine months one hour each day scrubbing the streets of hell with strong lye.

Your Students No More
Gore Springs High School Jessie Mae Mormon read a chapter from the Bible, and Mr. McGahey led in prayer.

Home Ec. Class Entertains
The Home Economics girls entertained the Woman's Club Wednesday afternoon in the laboratory. Cake and coffee were served.

The basketball teams are under official practice now. A game with Spring Hill next Tuesday has been scheduled. The girls are showing much improvement, since a very few have ever played before.

Some of the girls wonder if Mr. Sprayberry and J. B. really dislikes girls.

Johannie we hope you and Doc don't have to crawl to the Jackson fair.

Frances Turnbo, why don't you or Jessie Mae grow taller?

The High School, including the 4-H girls, are glad the 4-H boys won so many prizes Saturday.

What seventh or eighth grade student enjoys the results after making below fifty on a daily test?

At last Elwanda has been able to tell the American History class some new history. In class one day she answered a question by saying, "King Philip was a queen."

Gore Springs News

We are sorry that it was found necessary for Mrs. J. E. Gillon to undergo a major operation at the Grenada Hospital Friday, Oct. 7th. At this writing she is reported doing nicely. Her many friends hope for her a speedy recovery.

Mr. and Mrs. Homer Trussell and son, Homer Dale, spent Sunday in Grenada with Mr. and Mrs. Ed Trussell and family.

Mr. and Mrs. Earl Tharpe and son, Earl, Jr., attended church at Graysport Sunday.

Rev. and Mrs. McCiffin, of Duck Hill, were dinner guests of Mrs. Bell Trussell Sunday.

Mrs. Alice Trussell returned home Saturday after a few week's visit with her daughter, Mrs. Jim O'Brine, of near Grenada.

Mr. and Mrs. Jep Hemphill, of the Providence community attended Sunday School and church at Gore Springs Sunday and were dinner guests of Mr. and Mrs. A. L. Hemphill.

RIVERDALE CLUB MEETS

The Riverdale Home Demonstration Club met October 6 at the home of Mrs. E. L. Boteler with Mrs. Green as co-hostess. There were seventeen ladies present for this meeting.

Miss Wood, Home Demonstration Agent, discussed plans for Program Planning Day, which is to be held soon and displayed a mattress made in her office. Mrs. Boteler, club president, appointed a nominating committee to select officers for the next club year.

Rook and bridge were enjoyed and Mrs. J. M. Talbert was the winner of the rook prize and Mrs. E. A. Penn, the bridge.

The hostesses served delicious ambrosia and cake, which carried out attractively the Halloween motif.

Apparatus For Applying Secret Glaze

DERREY, Pa.—Apparatus for applying a secret glaze and simplified processing method in the manufacture of insulators free from radio interference has been installed at the Westinghouse Electric & Manufacturing Company's porcelain plants here and at Emeryville, Calif. This new development, the company's research engineers state, makes it possible for the utility industry to build power lines free from radio noise emanating from insulators.

You Have It ... but do you use it?

In Your Business, the telephone should never be a "silent partner."

Use it, and particularly, remember that a long distance call is a swift and economical way to buy—sell—collect—in any part of your territory. Study the list of rates to other cities in your telephone directory, for there you will find a picture of the low cost way to get action on many a business problem. To buy, sell, collect, use "Long Distance."

OLD AGE PENSION

IS RACKET IN CALIFORNIA

New York—Promoters of the California Pension Plan—"Thirty Dollars Every Thursday"—one of whom was convicted in 1934 in federal court of using the mails to defraud, are collecting \$2,400 a day in small contributions from old people who hope to benefit from the proposed system, according to an investigation by a well known magazine.

The pension leader whose criminal record is revealed is Willis Allen, chairman of the organization, who was convicted of swindling the public through promotion of a fake hair restorer. Allen himself would not reveal to Walter Davenport, who investigated the present scheme, the extent of his collections, but one of his associates estimated the income at \$2,400 a day, which Davenport regards as conservative.

Two hundred thousand Californians are reported to have joined the movement, which is sponsoring a constitutional amendment to effect the payment by the state of \$30 a week in scrip to all unemployed citizens over fifty, and the membership is increasing at the rate of 2,000 a day. Dues are a cent a day, payable at the rate of 30 cents each month in advance. In addition, Davenport states, Allen has sold 200,000 copies of the movement's bible, "Ham and Eggs for Californians," at 25 cents each, and 50,000 tiny Liberty Bells, insignia of the organization, at the same price.

In an effort to forestall any possibility that the pension amendment, if adopted, might be termed unconstitutional, the promoters have inserted in it a clause stating that "no injunction or writ of mandate or other legal or equitable process shall ever issue to interfere with the administration of this article or to prevent or enjoin any provision of this article going into effect." They then added a clause stating that "if any section, subsection, sentence, clause or phrase of this constitution of the state of California is in conflict with any of the provisions of this article, such section, subsection, sentence, clause or phrase is to the extent of such conflict hereby repealed."

In case this were not enough, the promoters of the plan concluded the proposed amendment with the statement that "in the event that any decision or order of any court shall hold invalid or unconstitutional any provision, section, subsection, sentence, clause or phrase of this article, or the application thereof to any person or circumstance, such decision or order shall not affect the validity of the remaining portions of this article."

Davenport states that thousands of persons who are not themselves eligible for pension but who have dependents who are, plan to vote for the amendment on the theory that "it may be a racket and maybe it won't work for more than a couple of weeks, but that will be sixty dollars more than I ever got before for one vote."

He estimates that if the amendment is adopted 500,000 persons will sign up for \$30 every Thursday, which in one year would result in the issuance of \$780,000,000 in scrip.

Casualty Toll Totals

1,399,500 on Hi-ways

WASHINGTON, D. C. Oct. 13—

American highways are almost as dangerous as a battlefield, according to reports by the U. S. Bureau of Public Roads and the National Safety Council.

Last year 39,600 persons were reported killed and 1,360,000 were injured on highways. These casualties were greater than American losses in any similar period of the World War.

Responsibility for large percentage of the automobile accidents was attributed by the bureau to misuse and diversion of automobile tax funds. It said \$161,413,000—13½ cents out of every highway tax dollar—was used last year for non-highway purposes.

Two States Cut Off

The bureau withheld \$477,362 in Federal aid from Massachusetts and \$260,000 from New Jersey for illegal diversion of state highway funds, mostly for relief purposes. Georgia was placed on probation and North Dakota warned for questionable practices.

The use of highway funds for other purposes by several states is being investigated and action may be taken soon, bureau officials said. They said, however, that it was impossible to ascertain how much money had been allocated to other uses.

State highway income in 1937 totaled \$1,195,625,000 and expenditures—including payments on debt, state police, local roads and non-highway purposes—amounted to \$1,166,706,000 the bureau reported. Federal contributions amounted to \$262,762,000.

Fault Found With Roads Even that amount was insuffi-

cient to keep highways in good condition and build new roads, the bureau said. No official estimate was available as to the number of persons killed or injured in "death traps" on highways, but officials said faulty roads contributed to a great number of accidents.

The bureau is conducting a joint investigation with states to locate and eliminate dangerous roads and bridges. Officials said the inquiry is being made in 46 states and that the results will be made public upon completion.

It is hoped to arouse public sentiment to force highway officials to keep public roads in good condition. Economic losses last year from automobile accidents were estimated by the safety council at \$1,700,000,000—about 3 per cent of the national income and enough to finance the building of 35 Empire State buildings.

NOTICE OF TRUSTEE'S SALE

Under the provisions of and by virtue of the authority conferred upon me in a Deed of Trust, executed by Mary Boclair and Watson Boclair to Frank Minter on the 27th day of February, 1933, to secure a certain indebtedness therein mentioned, and which said Deed of Trust is recorded in Book 71, Page 123, of the Records of Land Mortgages in the office of the Chancery Clerk of Grenada County, Mississippi; default having been made in the payment of the indebtedness named in said Deed of Trust, I, J. H. Dogan, the Trustee named in said instrument, will, at the request of the said beneficiary named in said Deed of Trust, on the 29th day of October, 1938, offer for sale, and will sell at Public Auction, for cash, to the highest and best bidder, at the East door of the Court House in the City of Grenada, Grenada County, Mississippi, during legal hours, the following described property named and described therein, to-wit:

North Half of the Northeast Quarter and the South Half of the North Half of the Northeast Quarter of the Northwest Quarter, Section Thirty-Four, Township Twenty-three, Range three east.

Title to said property believed to be good, but I will sell and convey as Trustee only.

Witness my signature this, the 5th day of October, 1938.

J. H. Dogan, Trustee.

ANOTHER BANNER YEAR RECORDED BY STATE'S DAIRY MANUFACTURERS

Creameries, Cheese Factories
Condenseries Have Peak
Productions to Report

By J. C. HOLTON
The well-rounded dairy manufacturing industry in Mississippi is evidenced in a report of production for the year 1937 recently made available by the State Department of Agriculture. Dairying now ranks among the foremost of farm endeavors in the state.

Thirty years ago there was no creamery in Mississippi, no condenseries and no cheese factory. In the ten years that followed, butter production was expanded so as to include many sections of the state. Dairy animals were purchased by farmers and cared for. Creameries were established as needed, so that by 1918 there were 26 creameries and numerous cream buying stations. These 26 creameries manufactured 2,947,948 pounds of butter during 1918. During the year closed, 20 creameries manufactured 6,050,180 pounds of butter, thereby more than doubling butter production in 20 years.

The first Mississippi condensery, established in 1927, was soon followed by others and the total amount of butterfat utilized by condenseries during that year was 2,295,260 pounds. Ten years later during the year 1937, four mammoth condenseries utilized 4,678,723 pounds of butterfat contained in more than 100 million pounds of whole milk purchased.

The first cheese factory was similarly established in Mississippi in 1927, and cheese plants during that year manufactured 197,534 pounds of cheese. Ten years later, in 1937, fourteen cheese factories including some of the largest in the nation, produced 9,318,633 pounds of cheese manufactured from approximately 90 million pounds of whole milk.

305 Days to Equal Her Weight in Butterfat

Producing more than her own weight in butterfat in 10 months, an Oregon purebred Jersey cow, Sybil Tessie Lorna 996685, has established a new world's record for dairy cattle under 305-day test rules. Under official test supervised by The American Jersey Cattle Club, from December 1, 1937, to October 1, 1938, she produced 1020.52 pounds of butterfat. Her 305-day yield of 17,121 pounds of milk tested 5.96% fat. Still milking at the rate of 48 pounds a day, the 6-year old Jersey, bred and owned by L. A. Hulbert, Independence, Oregon, is traveling across the continent to Columbus, Ohio, where she will be displayed at the National Dairy Show as "The Cow that Jumped Over the Moon."

In addition to markets for milk and butterfat furnished by creameries, condenseries and cheese factories, still other markets are available through ice cream plants and the distribution of milk to wholesale and retail trade. Altogether the dairy industry extends into every county and almost every community in the state.

Dairying is one of our really great agricultural assets, and is increasing in importance from year to year. Annually there has been recorded improvement in quality and increase in production. This is true as the last quarter of 1938 begins, for on September 1, this year production in all major outlets was ahead of last year.

COUNTY WIDE MEETINGS TO STUDY LAND USE

STATE COLLEGE, Miss.—J. T. Copeland, extension agri-

cultural engineer, today announced the schedule of a series of county wide meetings of farmers to study land use, terrace building (and maintenance, and soil-conserving crops.

Mr. Copeland will be accompanied by Dan Howell, specialist in visual instruction who will show educational pictures. A three-reel picture entitled "Wise Land Use Pays" and made in Mississippi by the State Extension Service and the U. S. Department of agriculture will be shown. This picture includes scenes from all portions of the state, outlines the basic principles of land use, soil conservation and soil building and thousands of farmers are expected to attend these meetings to see this sound motion picture.

DRASTIC "SHAKEUP" IN AAA OFFICIALS

WASHINGTON — Secretary Wallace, in the most drastic "shakeup" of agriculture department personnel in a quarter century, sent new executives to key positions today in a reorganization move to coordinate the New Deal's farm program.

Resorting to direct action to meet emergencies resulting from farm surpluses and declining prices, Wallace reorganized the administrative agencies of his department to coordinate the marketing and production control features of President Roosevelt's farm program.

Most important of the shifts was the transfer of H. R. Tolley, agricultural adjustment administration chief, to head the expanded Bureau of Agricultural Economics. Tolley will supervise all general planning for acreage adjustment, conservation and marketing. He will direct the flood control work, forestry, wildlife conservation, erosion control, tenancy and rehabilitation programs of the department.

A. G. Black, previously chief of the bureau of agricultural economics, was made director of marketing and regulatory work, an agency to coordinate work of the Federal Surplus Commodities Corporation, Agricultural Adjustment Administration marketing agreements, the Sugar Act and the Commodity Exchange Act.

The re-assignments in executive branches of the department will be effected in shifts of personnel and responsibilities in thousands of minor agriculture department offices in Washington and other sections of the country.

Officials said the realignment of administrative and planning agencies would result in no immediate changes in application of the farm program.

"It is imperative that we establish over-all planning work for the whole department in order to provide for proper functioning of the many new activities authorized in recent years by Congress," Wallace said.

He announced the changes after a week's tour of southwestern and middlewestern states in which he personally obtained farmer reaction to the 1938 agricultural program.

Cotton grower complained that prices are 25 per cent below a year ago despite the fact that the reduced plantings by 7,000,000 acres this year.

Reduced domestic cotton consumption and exports left the United States with a record supply of approximately 25,000,000 bales—more than double the 11,000,000 bales consumed by domestic mills and exported last year.

MEMPHIS, Tenn. — Reorganization of the Agricultural Adjustment Administration because of reported internal disagreement was engineered by Secretary Henry Wallace through cooperation of four Southern Legislators, Oscar Johnston, government advisor at arm legislation, indicated today.

Simultaneously with announcement in Washington that personnel and administrative changes had been ordered by Wallace "to speed up the department's service to the public," Johnston, a former AAA Administrator, released a statement in which he declared:

"There are officials of the AAA who lack real knowledge of the cotton problems and who, because of their lack of knowledge, lack sympathy with the producers."

An intimation that Wallace worked with I. W. Duggan, southern director of the AAA; Sen. El-

ison D. Smith, D., S. C.; Sen. John H. Bankhead, D., Ala.; Rep. Wall Doxey, D., Miss., to reorganize the department was seen in the recent outburst of opposition by the five men to a proposed reduction of approximately \$60,000,000 in 1939 cotton payments to farmers.

Although announcement of the proposed reduction was made last August 16, widespread opposition was not heard until recently. The protests were followed by the shakeup.

Johnston's criticism of the AAA directors, whom he refused to name, supplemented an earlier statement protesting the threatened reduction of cotton payments.

He charged that there were AAA directors who were not well-informed on problems of the cotton farmer because "in almost every interpretation of laws providing for the allocation of funds among basic commodities, officials had given interpretations that tend to discriminate against cotton producers."

He said the Delta Council, a national cotton organization, did not oppose increased payments to cotton, wheat, rice and tobacco growers. He said that wheat increased payments were necessary to these groups, they should be made "but not at the expense of the cotton producers."

Johnston said that wheat and corn benefits had been increased while those of cotton were decreased.

EMPLOYMENT SERVICE BREAKS PAST RECORDS

JACKSON, Oct. 8. — The Mississippi State Employment Service broke all past records for the state during September by placing 2,594 persons in jobs with private employers and 4,384 in public employment, Director Raymond L. Sullivan announced today.

The MSES registered a substantial improvement over its record in August, when Mississippi made 1,688 private placements and ranked second in the nation with 4,281 public placements.

For the first month since the Unemployment Commission began

taking claims, the total placements, 6,978, outnumbered the total initial claims for job insurance filed by unemployed persons, 4,310.

Of the Employment Service's 24 districts, those securing the highest number of private placements were: Gulfport, 582; Columbia, 355; Jackson, 390; Columbus, 225; Vicksburg, 222; Yazoo City, 205; McComb, 76; Kosciusko, 65; Grenada, 54; Clarksdale, 52; Hattiesburg, 47, and Oxford, 46.

The leading industries which hired workers through the Employment Service during September were: Agriculture, forestry and fishing, 540; food manufacturing (including fish packing), 520; chemical manufacturing (including oil mills), 291; commercial and mechanical services, 277; manufacture of forest products, 258; domestic and personal services, 224; retail distribution, 147; textile manufacturing, 132; construction, 68; and hotels and restaurants, 60.

Of the 2,594 persons placed in private jobs, 1703 were men and 891 were women. All placements

by the Mississippi State Employment Service are made free of charge.

YOU CAN DEPEND ON THE WEBER WAGON

for Years of Hard Work

If you need a strong, light-draft wagon for hard use over all kinds of going, you can't get any wagon better than the Weber. And it is priced right, too.

Thoroughly seasoned "A" grade lumber is in the wheels, axles, reach, and tongue. The finest oak and hickory are used in the wheels, and the steel tires and hub bands are put on to stay by a hydraulic press.

Weber farm gears and boxes have been giving the most satisfactory service for nearly a hundred years. Don't buy any wagon until you have examined the Weber. Various capacities and sizes available to meet practically every hauling need.

Johnny Drove Teacher Crazy

The constant nagging and nagging was in constant demand. As much as he wanted, the cause of his discontent was the Pin Worm (Giant Worm). These tiny worms are very prevalent because it is so easy for the infection to pass from one child to another. Consider the pin or seat worm fish contaminates the floors and finger nails and in many instances it is found in the worm's school.

It is a wise teacher who tells Johnny home with a note suggesting that his mother buy Jayne's Pin Worm Preparation, a qualified contribution of medicine for this purpose.
